

SHADY SHORES CAMPGROUND

Weekly Information Board

July 26, 2010

This Week at Shady Shores:

The rain this weekend didn't dampen our camper's spirits at all. The camp fires were still burning and everyone enjoyed the lake and other camp activities. The lake temp is 75 so get out and enjoy the water! Our campers ended another Five Week Club season last week. Special thanks to Toots and her helpers for all the hard work in putting it and all the events together.

Fishing Report:

The high temps have slowed the bass fishing down some this past week. Some campers have been going deep to pull up the bigger fish. Some nice Rock Bass were caught by Tom Camino this past week in the Blind Sodus Bay on crabs. Offshore, the Brown Trout are still biting out in the deep water. The Salmon have been hard to find the last two weeks.

Come in and enjoy a perfect Vacation with Us on Lake Ontario at Shady Shores Campground.
